AOD Policy and Programming Inventories

Alcohol and Other Drug Policies Summary

Lehigh Carbon Community College has enacted several drug and alcohol policies for employees and students. These policies are reviewed annually to determine if revision is needed and ensure reflection in current practices. These policies can be accessed at several locations online and by directly contacting several offices (HR, Public Safety, Student Conduct, Counseling Center, Student Life, and Special Events). In this way, the College provides easy access for all members of the College community. The policies are posted for employees on the Intranet in the College Policy and Regulations Manual. The policies are posted for students in the Student Handbook, on the College website and portal. Safety and Security links provide access to the Drug-Free Campus policy as well. In addition, the facilities usage policy reinforces College alcohol and smoking policies for visitors. The drug and alcohol policies and procedures are also referenced (with direct links) in our Annual Security Report.

All listed policies and regulations identify conduct that is prohibited and the range of disciplinary and referral actions to be taken. Drug-Free Campus policy also identifies federal and state laws that can be applied and the appropriate disposition for violations. The Drug-Free Campus policy number 2-302 also identifies the health risks involved in using controlled substances.

Alcohol and Other Drug Programming Summary

Programming activities, annually scheduled events, distribution of literature and surveys.

Faculty counselors held an annually scheduled event for Alcohol Abuse Awareness, with the assistance of the Psychology Club. In addition to counseling information, blood alcohol wallet cards, brochures, and a screening form were made available. Under the influence goggle demonstrations and mocktail service also provided for all. In addition, Counselors posted drug and alcohol info on Counseling Services webpages and flyers are available at all sites. Pamphlets with community resources and referral information was available and distributed as appropriate to students, at all sites.

Athletics and Recreation department coordinated the Wellness Fair, including participation of Pennsylvania State Police. In addition, there was broad participation from the College community.

Student Life also conducted a leadership workshops called "Sex, Lies and Alcohol", provided by Crime Victims Council of the Lehigh Valley, October 2016. Additionally, the Student Life Department partnered with the Lehigh Valley Safe Driving Task Force to host their annual Pre-Holiday Safe Driving Campaign. This was held on November 16, 2017 and included members of the Liquor Control Board, State Police and other law enforcement agencies. Zero Shades of Grey - Sexual Assault and Awareness Workshop, April 14, 2016; Students Fight Back, October 13, 2016; Bystander Awareness Workshop, November 3, 2016; Date Rape or Drunk Sex - How to tell the difference, April 4, 2017

Campus Climate Survey - The committee participated in a demo from Workplace Answers. The committee reviewed the questions in the survey to ensure they meet the criteria under Title IX for campus climate surveys. The survey results will be used for three purposes:

- It would allow LCCC to examine the prevalence and incidence of general climates, harassment, bullying, drugs/alcohol misuse, and sexual misconduct occurring within the community
- It would provide a sense of attitudes among students and employees about the campus climate
- It would inform us of what students and employees know in regards to College resources that are available to students and employees to use

On February 6, 2017 the first climate survey was sent out to 736 employees and 4,376 students. In reviewing the survey results, 614 students and 367 employees completed the survey. The survey results were not as comprehensive as the committee would have liked to see. If another survey would be considered for the future, the committee would consider having an outside agency conduct the survey and analyze the results.

Public Safety Department will continue to conduct a two year survey that provided a summary of reported drug and alcohol related concerns within the College. Areas surveyed are student conduct and human resources administrators, faculty counselors, and public safety records. The report indicated number of incidents/students reported and actions taken for drug and alcohol related matters.

Alcohol and Other Drug Policies Inventory

Policies & Regulation Manual: Policy 2-302, Drug-Free Workplace, Alcohol, and Other Drug Abuse Prevention Program **Revised: February 2, 2017**

It is the policy of the College to maintain a drug-free environment. The College is committed to protecting the safety, health, and well-being of its employees, students, and all people who come into contact with its workplace/campus and property, and/or use its services. The College is committed to maintaining a healthy and safe environment that promotes respect for oneself and others, zero tolerance for disruptive behavior resulting from alcohol and other drug abuse, and compliance with the law. The policy is meant to encourage responsibility of individuals to themselves and each other, to establish procedures and guidelines consistent with local, state, and federal law, and to hold individuals responsible for actions that are in violation of this policy.

General

The College's drug-free campus policy is intended to apply to all employees, volunteers, and students while on College property, at College-sponsored events, and while conducting business for the College. It is a violation of this policy to use, possess, sell, trade, and/or offer for sale illegal drugs or intoxicants.

The College expects each student as well as all faculty and employees to obey federal, state, and local laws concerning alcoholic beverages. Students, faculty, and staff who are legally permitted to use alcohol may do so on College property only pursuant to this policy and are expected to do so in a way that does not bring discredit upon themselves or the College or interfere with the rights, freedoms, or safety of others.

The College encourages employees, students, and volunteers to seek help with drug and alcohol problems. However, nothing in this policy is intended to limit the College's ability to take action against employees, students, visitors, or volunteers who are in violation of this policy.

The College officials will cooperate with local, state, and federal authorities to ensure compliance with laws for unlawful use, possession, manufacture, distribution, or sale of illicit drugs or alcohol and will advise students and employees that convictions or violations of these laws can lead to fines and/or imprisonment.

Employees

All College employees are expected to abide by local, state, and federal laws pertaining to the manufacture, distribution, possession, or use of alcohol, including providing alcohol to a College student or other individuals who are under the age of 21.

Employees are not allowed to possess, distribute, or use alcoholic beverages on College property, unless otherwise approved and scheduled as described later in this policy.

Employees are not allowed to possess, distribute, or use illegal drugs on College property or at College programs. Employees are not allowed to be under the influence of illegal drugs on College property or at College programs, even if that means that the employee used the illegal drug off College property. Employees are not allowed to perform College work under the influence of illegal drugs or alcohol.

As a condition of employment, all employees must abide by this policy. Violation of this policy by any employee will result in disciplinary action up to and including termination.

Employees and volunteers must notify the Director of Human Resources within 72 hours of an arrest or conviction under the Pennsylvania Controlled Substance, Drug, Device and Cosmetic Act, whether occurring on or off College property. At the College's option, the College may require that the employee enter a rehabilitation program within thirty (30) days of the College receiving notice of conviction. If an employee or volunteer is convicted of an offense under the Drug, Device, and Cosmetic Act, the employee/volunteer must be terminated.

Students

Students are not allowed to possess, distribute, or use alcoholic beverages on College property or at College programs, unless otherwise approved and scheduled as described later in this policy.

Students are not allowed to possess, distribute, use, or be under the influence of illegal drugs on College property or at College programs, even if that means that the student used the illegal drug off College property.

Students are not allowed to be under the influence of alcohol on College property or at College programs, unless otherwise approved and scheduled as described later in this policy, even if that means that the student drank the alcohol off College property.

Violation of this policy by a student may result in immediate suspension leading to possible dismissal. Suspected drug abuse must be reported immediately to the Director of Human Resources.

Any student who legally uses alcoholic beverages but does so in violation of this policy is subject to College disciplinary procedures.

Any student who illegally uses alcoholic beverages is subject to the jurisdiction of the civil authorities as well as College disciplinary procedures. The College defines its relationship with students in this area as non-custodial and stresses that there is no "special relationship" created by their status as students as it pertains to the law. The College will take no responsibility for any actions taken by students, faculty, or staff who have been drinking, whether on or off campus.

Permissible Use of Alcohol.

Alcoholic beverages are not permitted at any College building or on the grounds of any College location, except during such times as approval to serve alcoholic beverages is granted by the College President or designee.

Those seeking approval from the College President or designee whose decision shall be final, must provide a statement outlining all details of the event and how they will abide by this alcohol policy.

All Commonwealth of Pennsylvania laws and regulations governing the serving of alcohol must be observed. The College does not and will not condone, under any circumstances, the sale of or payment for any alcoholic beverages at any College building or on the grounds of any College location.

The College does not and will not condone, under any circumstances, the use of alcoholic beverages by anyone under the age of twenty-one (21) years old or visibly intoxicated or permitting alcoholic beverages to be served by anyone to anyone under the age of twenty-one (21) years old or visibly intoxicated.

The College only permits alcoholic beverages to be served for on-site use at any College building or on the grounds of any College location under the terms and conditions for which approval was granted.

Those given account for and permission to serve alcoholic beverages pursuant to this policy shall take the

appropriate measures to secure all alcohol before, during, and after the approved event.

Consumption of alcoholic beverages shall only be incidental to any event held at any College building or on the grounds of any College location and non-alcoholic beverages must be available at any event where alcohol has been approved to be served.

The College President or designee, reserves the right to revoke the approval granted to serve alcohol at any College building or on the grounds of any College location, at any time before or during the approved event.

Analysis of AOD Programming Effectiveness and
Recommendations

The Awareness & Prevention Education (A & PE) Task Force was established during the fall semester of 2013. The first task for the group was to meet and determine our mission and goals. We agreed upon the following as our guiding principles:

Alcohol and Other Drug (AOD) Program
January 2018 - December 2019

MISSION

Enhance the College learning environment through implementation of alcohol and other drug policies, prevention education programs, and community services referrals.

GOALS

Provide two drug and alcohol awareness and prevention events annually for students and employees in each of the next two years. These would be in addition to the Wellness Fair. Evaluation will be completed by estimating attendance or audience reached.

Provide comprehensive listings of treatment or referral options available to students and/or employees for alcohol and drug issues. Promote through "College Voice", Intranet, and Counseling Center.

Provide Title IX information for employees and student in the form of brochure and single page fact sheet.

Review and analyze types of incidents on campus, determine if specific intervention will need to be applied that govern the conduct of students and employees. Determine number of student concerns reported annually. Benchmark data and monitor annually, using results to recommend policy enhancements, strengthen prevention programming and service referrals. Collect data from StART, Public Safety and Human Resources databases, review annually to determine change, and recommend AOD program enhancements as appropriate.

Assessment of Activities/Events identified by Task Force

It is apparent the College has increased awareness and prevention education activities in the campus community regarding alcohol and other drug use. Throughout the period of assessment for this report, the focus of these activities has been more heavily awareness building in nature, with a smaller percentage taking a more clearly educational approach. Given the participation and engagement levels demonstrated by students and employees, it appears that awareness, interest and desire to learn more about alcohol and other drug related concerns has increased. In addition, more people appear to know where to seek help on campus, and where to find the policies that govern the campus community. This observation comes from anecdotal reporting from the employees in various service departments.

More specific assessment of individual events and strategies appears below.

Faculty Counselors

- a. Alcohol Abuse Awareness Event in the cafeteria – table event. "Blood Alcohol Concentration" wallet cards were distributed to students who wanted one. Informational brochures were distributed. A screening form based on the "Alcohol Use Disorders Identification Test" was available for students to complete. Counselors received assistance from the LCCC Psychology Club as students were offered the chance to wear goggles which mimic the effects of alcohol. There were other activities to educate students on judgment and responsible drinking. During this four-hour where we actively met with at least 100 students.
- b. Information on alcohol and drug use is available on the LCCC website under "Counseling Resources" and "Counselor Tips". (2016-2017)
- c. Posted information on drug and alcohol abuse at the LCCC Allentown at the Donley Center on the "Counseling Tips of the Week" flyer. LCCC Main Campus has pamphlets available on drug and alcohol issues and concerns through the Counseling Center. (2016-2017).
- d. A pamphlet with community resources for Lehigh, Schuylkill, and Carbon counties is available through the Counseling Center, the counselors at sites, and distributed to students and staff as appropriate. (2016-2017)

Student Life/Student Government Association

The Student Life Department partnered with the Lehigh Valley Safe Driving Task Force to host their annual Pre-Holiday Safe Driving Campaign. This was held on November 16, 2017 and included members of the Liquor Control Board, State Police and other law enforcement agencies. An estimated 100 students, faculty and staff stopped by the information table set up in the cafeteria, engaged with the officers, took information and completed an alcohol awareness assessment. Other workshops that were hosted that included information about the correlation between drugs, alcohol and sexual assault and violence were hosted during this review period. These workshops are as follows: Zero Shades of Grey - Sexual Assault and Awareness Workshop, April 14, 2016 (8 students and staff attended); Students Fight Back, October 13, 2016 (16 students and staff participated); Bystander Awareness Workshop, November 3, 2016 (27 students and staff attended); Date Rape or Drunk Sex - How to tell the difference, April 4, 2017 (10 students and staff participated).

Recommendations from Task Force for January 2018 through December 2019

1. Alcohol and Other Drug Awareness Event table in the cafeteria should continue and take place during the spring semester.
2. Continue to update the Counseling Resources and Counselor Tips.
3. Keep pamphlet current with community resources for Lehigh, Schuylkill, and Carbon counties.
4. Wellness Fair - task force should evaluate the Wellness Fair, feedback from Director of Athletics on vendor evaluations and determine best approach. Seek participation of Highmark BlueShield and EAP (Employee Assistance Program) if not already involved.
5. Continue to report out information gathered by Public Safety and Student Conduct through required reporting mechanisms and the campus website.
6. Offer Professional Development workshops with focus on AOD topics.
7. Continue to explore possible implementation of a nationally normed survey (such as the ACHA NCHA Survey) for distribution to students to establish what types of services and programs may be most helpful.
8. Consider the climate survey requirements as well.
9. Continue to implement a Wellness Survey which includes AOD issues for distribution to employees, to help in determining further programming for employees.
10. Explore AOD online awareness programs similar to the Sexual Harassment program that all employees complete.
11. Include AOD topics in College Voice.
12. Effective 2018, the Awareness and Prevention Education Task Force Committee will be dissolved. Moving forward, the Director of Human Resources and Dean of Student Support and Success will continue to work closely together to ensure activities and events are schedule. Ad hoc committees will be formed as needed for such things as climate surveys and the updating of the AOD Biennial Review and AOD Program Plan.
