

COLOR IN NATURE HUNT

How many colors can you find in the landscape?

Use this color wheel to compare your finds, and check each color off. Take pictures if you want to create a digital wheel!

COLOR IN NATURE HUNT

How many colors from a traditional color wheel can you find in nature? Go on a color hunt to find out!

- If your finds are on the ground, feel free to tape a sample next to its color on the wheel.
- Which color is the hardest to find?
- Does the season make a difference in which colors are around?
- If you make a collection from found objects, create a new color wheel by arranging them to show the color progression.
