

ADDENDUM 3

Clarify the difference between “staple” and “finisher” on the first tab of Xerox and HP Printers Volume spreadsheet

Response: The stapler option is always there and can be activated even if the finisher is not present and wouldn't work. The sheet is now updated to reflect that change.

The Xerox machines listed below are A4 desktop devices which can only print up to 8-1/2" x 14." Please confirm if the replacement machines need to print up to 11" x 17".

17	Schnecksville	SH125	E03180	Xerox	VersaLink C405
22	Schnecksville	SSC005	ES00350	Xerox	VersaLink B405
11	Schnecksville	LB109	ES00351	Xerox	VersaLink B405
1	Allentown Airport	Office	ES00352	Xerox	VersaLink B405

Response: A4 only is fine for these. The sheet has been updated.
