When you apply for one of these programs, LCCC will grant you credit for the following courses:

LCCC Program		ELE 120 DC Circuits 4 Credits	ELE 165 AC Circuits 4 Credits	ELE 130* Digital Fundamentals 4 Credits	HAC 160* Residential Wiring 3 Credits	Total Credits Granted
Electrical Engineering Technology AAS	EET	4	4	4		12
Electrical Technology AAS	ELT	4	4		3	11
Electronics Technology AAS	ELE	4	4			8
Industrial Automation AAS	INR	4	4			8
Nanofabrication Technology AAS	NMT	4	4	4		12
				*Challanege Exam Credits		

Requirements for Credit

1. The student must graduate from the Career and Technology Program with a B average or better in all technical courses.

2. This articulation agreement and awarding of credit is acceptable for up to three years after the student has graduated from the Career and Technology Center. Students who apply for credit after the three-year period must be able to document that they have been employed or are currently working in an area related to their Career and Technology program.

Note: Articulated credits will not be used to calculate the student's grade point average.
